

AMERICAN COUNCIL OF ENGINEERING COMPANIES
of Louisiana

September 4, 2020

Mr. Bob McAnelly
Chairman, Louisiana Board of Ethics
Post Office Box 4368
Baton Rouge, Louisiana 70821

Dear Chairman McAnelly,

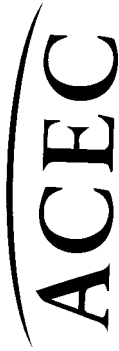

The American Council of Engineering Companies of Louisiana (ACECL) is a not-for-profit organization based in Louisiana advancing the business of engineering. ACECL is conducting an Engineering Excellence Awards program to recognize engineering projects from around the state that demonstrate a high degree of achievement, value and ingenuity. Projects are selected by an independent panel of private and public sector judges. There is anticipated to be several public projects selected for awards. ACECL plans to invite those named public servants honored in the program to attend and accept the award for the winning project(s) at a banquet dinner hosted by ACECL.

We are seeking guidance from the Board of Ethics whether the named honorees in the program would be prohibited from accepting an invitation from ACECL to attend the ACECL Engineering Excellence Awards banquet to receive their award.

Sincerely,

DOREEN O. BRASSEAUX
President and CEO
